WELCOME TO THE ERAWATCH WEBSITE

ERAWATCH provides information on European, national and regional research systems, policies, and programmes in the EU and beyond.

What does ERAWATCH do?

- ERAWATCH provides **information on European, national and regional research systems, policies, and programmes** in the EU and beyond.
- ERAWATCH supports **evidence based policy making in Europe** and contributes to the **realisation of the European Research Area (ERA)**. (ERA – coordination of research policies, pooling of resources, strengthening transnational research cooperation, etc.)
- ERAWATCH currently covers **61 countries**:
 - x) the **27 Member States** of the European Union,
 - x) **14 countries associated** with the European Community's Research Framework Programme and
 - x) **20 third countries – including Russia**. It also provides an overview of the European Union.

What does ERAWATCH do?

- ERAWATCH information is collected and presented by the **Joint Research Centre – Institute for Prospective Technological Studies (JRC-IPTS)** with the support of the [ERAWATCH Network](#) of national experts.
- The ERAWATCH network is also used to collect information about **innovation policies in 48 countries** (27 EU Member States + 21 associated or third countries) within the [Pro-Inno Policy TrendChart](#)

What does ERAWATCH do?

- **Information is comparable over the different countries** at the ERAWATCH website, information is established according to the same (detailed) drafting guidelines
- ZSI is participating in the ERAWATCH network; it deals with the S&T and innovation profiles of three countries:
 - **Austria**
 - **Russia** (together with Daria Zimina, Expert on Research and Innovation Policies)
 - **Moldova** (together with Gheorghe Cuciureanu, Researcher on S&T policies)

Which information on Russia can you find at ERAWATCH?

- **Russia Country Profile** of the S&T system (Research Policy, Research Funders, Research Performers, etc.)
- **Analytical Country Report** on certain aspects of Russia's S&T system (e.g. 2010 report on R&D investment targets, links between education, research and innovation, etc.)
- **Templates** on relevant Russian R&D and innovation
 - **Organisations** (Minobrnauki, RAS, RFFI, etc.)
 - **Policy Documents** (Strategies, etc.)
 - **Funding programmes** (FCP, etc.)
- **Inno-Policy Trendchart report on innovation policies** (e.g. On demand sided innovation policies, public procurement, etc.)

ERAWATCH Analytical country report 2010: Russian Federation ExpandAll CollapseAll

Type	Annual country report (2010)
Abstract	The main objective of the ERAWATCH Analytical Country Reports 2010 is to characterise and assess the evolution of the national policy mixes in the perspective of the Lisbon goals and of the 2020, post-Lisbon Strategy. The analysis is focused on the national R&D investments targets, the efficiency and effectiveness of national policies and investments into R&D, the articulation between research, education and innovation, and on the realisation and better governance of ERA.
Keywords	R&D
Author	Manfred Spiesberger
Document Date	14/12/2011
Attached Document	Download

Country-specific trends

Submitted by Administrator on 22 February, 2012 - 12:00

INNO-Policy TrendChart produced 'mini country reports' for each of the 48 countries monitored by the network of country correspondents in the second half of 2011.

The mini country reports had the objective to furnish three analytical reports with country specific information: a trend report on innovation policy in the EU, an overview report on innovation funding in the EU and an analytical thematic report on demand-side innovation policies.

The mini country reports are available here:

- Austria_TC_final.pdf
- Belgium_TC_final.pdf
- Bulgaria_TC_final
- Cyprus_TC_final
