Аннотация программы учебной дисциплины
«Миграция и развитие»

1. Исследования миграции и миграционная политика в сравнительной перспективе (4 ECTS)

Основными задачами данного курса является: объяснение студенту основных исследовательских проблем в рамках современной миграциологии, теории миграционной политики и интеграции; анализ существующей литературы и источников; обзор различных подходов государства к решению проблем мигрантов и национальных меньшинств; использование методов сравнительного анализа в миграционной политике.

2. План курса. Курс продолжается 2 модуля и состоит из 10 (20) лекций, 10 (20) семинаров (всего 40 академических часов), одной промежуточной контрольной работы и экзамена. Основные темы курса включают:

- Мигранты и миграция (основные понятия и определения). Миграция в мире: характер, направления, причины.
- Теории миграции (от Равенштайна до наших дней). Мигранты и демографическая ситуация. Третий демографический переход.
- Миграционная политика (конкретные примеры). Сравнительные исследования миграционной политики
- Интеграция мигрантов (теория и измерители).
- Влияние миграции на развитие принимающего и отдающего общества
- Влияние денежных переводов мигрантов на развитие

3. Требования к уровню знаний студентов (пререквизиты). Основы статистики; Демография; Основы социологии.

4. Преподаватель – к.э.н., доцент В.А. Козлов, преподаватели кафедры демографии
5. Тип экзамена – письменный экзамен.

Migration and Development Syllabus

1. Course Description

Title of a Course: Migration studies and comparative migration policy (4 ESTC)

Pre-requisites: Elementary Statistics; Demography; Elementary Sociology

Course Type: elective

Author: Associated professors V. Kozlov. The instructors: V. Kozlov and teachers from demographic department

2. Learning Objectives

Learning objectives of the course are: to introduce students to the main problems of the discipline, the existing literature and to the state of research on the topic; to introduce them to variations both in state approaches to the problems of migrants and ethnic minorities and their self-organisation; to give the students the basic methods for comparative analysis of migration policy.

3. Learning Outcomes

As a result of studying of discipline the student should

Know:

- The main directions of migrations in history and modern centres attracting major migration streams.
- The reasons for migrations and the main consequences of migrations both for the exit countries and the regions of entry of migrants.
- The main categories of migrants and of ethnic minorities

- The major problem migrants and ethnic minorities face. Forms of their economic and political self-support and organisation.
- Different types of state policy towards migrants and ethnic minorities.
- National and international mechanisms of the protection of rights of ethnic minorities and migrants and international legal norms pertaining to migrants and ethnic minorities.
- The main theoretical approaches to the problems of migrants and ethnic minorities.
- The nature and main directions of migration streams on the territory of the former USSR
- The main types of ethnic minorities on the territory of the former USSR
- Problems of ethnic minorities and migrants in Russia and the state policy of Russian Federation in this sphere
- The main literature on the problems of ethnic minorities and migrants which reflects the latest research and understanding of these problems

Be able to

- Competently analyse the nature and character of problems connected with migrants and national minorities in concrete circumstances.
- Compare problems of migrants and national minorities in different regions and countries.
- Competently define priorities in resolving the problems of migrants and national minorities and problems connected with them.
- Apply the latest theoretical approaches to practical resolution of the problems of migrants and national minorities.
- Define legal norms which apply to concrete situations connected with problems of migrants and national minorities.
- Offer competent and realistic ways of ameliorating problems of migrants and national minorities.

Get skills for

- Working with primary sources and literature on the problems of migrants and national minorities.
 - Studying migration processes and problems of national minorities and migrants and nationality relations as a whole.
 - Collecting objective and adequate information on the problems connected with migrants and national minorities.
 - A comparative analysis of the problems which arise in connection with migrants and national minorities in different countries.
 - A comparative analysis of state policy towards migrants and national minorities in different countries.
 - Working with different legal documents which regulate the situation of migrants and national minorities both at national and international levels.
4. **Course Plan:** the course lasts 2 modules and consists of 8 (16 academic hours) lectures, 12 (24 academic hours) seminars (40 academic hours all together), 1 essay, and final exam. Main topics of the course include:
- Migrants (main definitions). Migration (sorts and features). Global migration: reasons, directions (current and historical) and character. Major directions and nature of modern migration flows.
 - Theories of migration (from Ravenstein to the current ones). Major directions and nature of modern migrations. Migrants and demographic situation. Third demographic transition
 - Migration policy (current situation for developed and developing countries). Comparative analysis
 - Problems of integration. Theory and measurement
 - Migration and development of the sending societies and destinations countries.
 - Remittances and development
