

Syllabus  
Think tanks as policy actors  
(4 ECTS)

Authors: Zaytsev D.G, assistant professor <https://www.hse.ru/org/persons/245076>, [dzaytsev@hse.ru](mailto:dzaytsev@hse.ru); Uldanov A.A, lecturer <https://www.hse.ru/org/persons/25927507>, [auldanov@hse.ru](mailto:auldanov@hse.ru)

Department of politics and governance

## 1. Course Description

### a) Pre-requisites

Before studying of the given course students should master following themes:

Concept of a public policy, political process, agents and actors of a policy.

Should have skills of the political analysis and ability to conduct an independent research

### b) Abstract

This course is a professional one, taught in the second year of master's program 'Political Analysis and Public Policy' for specialization 'Political Analysis and Public Policy'. This is an optional course that require prior knowledge in political science and public policy analysis. The course is aimed to provide students with general knowledge about roles and places of think tanks in public policy process with particular attention to features of their work, their types and strategies on advisory market. This course will give you theoretical and conceptual knowledge about think tanks, policy advisory systems, and practical insights on the functioning of diverse think tanks around the globe. Think tanks in XX century became a strong actor not only in intellectual support of policy-makers, but also in policy-making process itself. Their knowledge and expertise might be valuable in very different spheres and even authoritarian governments do not deny possibility to use think tanks' support for better policy-making. During the course, we will have a look on different regions and markets where think tanks operating and see how influential and successful they could be in various environments.

## 2. Learning Objectives

To show possibilities of the political analysis in defining of political actors, a role and a place of not-governmental actors in political process, in an estimation of their political status and influence;

To analyze activity of the main Russian and foreign think tanks applying to influence in the policy field and having appreciable influence on political process and impact in policy making in the countries.

### 3. Learning Outcomes

As a result of studying of discipline the student should:

-Know definition of think tanks and their basic distinctive features from other institutes of intellectual policy support, methodological approaches to the analysis of a role and a place of think tanks in political process, function and forms of their participation in political process, a possible set of resources and strategies of think tanks, types of think tanks, based on their role in political process, types of analytical products of think tanks;

-Be able to structure and define types of analytical centers and their role in political process

-Make their own research on activities of think-tanks with the ability to compare think tanks with each other, based on the clearly defined criteria and their influence on political process in respected countries.

Systems: The Impact Of Externalization And Politicization On Policy Advice". Policy And Society 32 (3): 187-197. (HSE electronic resources)

## 6. Grading System

Cumulative grade is a grade for an independent student's work:

Final cumulative grade formula is:

$$Q_{\text{final grade}} = 0,7 \cdot Q_{\text{accumulative}} + 0,3 \cdot Q_{\text{final exam}}$$

$$Q_{\text{accumulative}} = 0,3 \cdot \text{Ref.paper} + 0,7 \cdot \text{Research Paper}$$

Attendance of the student will be taken into account in case of controversial final grade (i.e 7.5, 5.5, etc)

## 7. Examination Type

Oral exam in a form of individual discussion on the content of final essay

## 8. Methods of Instruction

The course format mixes lectures, group discussion, and video presentations. Students should take notes, both on lectures and on the reading, and presentations, with the intention of addressing the key themes of the course.

The readings are demanding and require intensive examination of a broad variety of issues and modes of thought. Students are encouraged to express diverse perspectives.

## 9. Special Equipment and Software Support (if required)
