Lecturer: International College of Economics and Finance / **National Research University Higher School of Economics (HSE)**
President / **International Economics Olympiad**

In Short

Danil Fedorovykh (Данил Фёдоровых) is a Lecturer in Higher School of Economics (HSE) in Moscow and the President of the International Economics Olympiad. His research interests include microeconomics, industrial organization and economics of informal markets. In 2012, 2013, 2014, 2015, 2016, and 2018 he won a “HSE Best Teacher” award.

Danil puts substantial efforts towards stimulating interest in economics among high schoolers and undergraduates. He is a co-founder of ILoveEconomics.ru, a website for Russian students who just started to learn economics, and is also a member of organizing committees of a number of contests in economic problem-solving (olympiads) and summer schools for high school students. In 2014, Danil received New Economic School Alumni and Friends award for promotion of economics among young generations. In 2018, he was elected the President of the International Economics Olympiad (<https://ecolymp.org>), of which he is one of the founders.

Danil is a promoter of LaTeX – a professional desktop publishing system for scholars. The course on LaTeX that he has been teaching in HSE, on Coursera.org and elsewhere helped hundreds of students, researchers and lecturers to learn how to make publications and presentation slides in a highly professional manner. In 2014, “Introduction to LaTeX” became one of the first Russian-language courses at Coursera.org and remains the only massive open online course (MOOC) in LaTeX in the world.
