|                     | <ul style="list-style-type: none"><li>• Compiled financial documents</li><li>• Initiated invoices for payment</li><li>• Kept a register of payments for current day bills</li><li>• Provided statistics on the market for services provided</li></ul>  |        |

---

## SKILLS

- **Python, C++, C**
- **Python DS Stack:** Scikit-learn, Tensorflow, Pandas, Numpy, Scipy, Gensim, Networkx, Pymorphy, Matplotlib
- **SQL**
- Experience of participation in open competitions at kaggle.com

---

## PROJECTS

- Structures of Neural Networks for Deep Learning
- Structural analysis and visualization of Social Network
- Automatic spelling correction in the text
- Analysis of migration in the Russian Federation using Network Theory
- Simulation of the aerodynamic problem of Zhukovsky and the solution of differential equations using numerical methods
- Solution of the heat equation in a rectangular area using numerical methods in C++

---

## EDUCATION

- |                     |  |        |
|---------------------|--|--------|
| Sep 2018 – Jun 2020 | <b>National Research University The Higher School of Economics, Master of Science</b>                | Moscow |
|                     | Faculty of Computer Science, Department of Intelligent Systems and Structural Analysis, Data Science |        |
| Sep 2013 – Jun 2017 | <b>Moscow State University, Bachelor of Science</b>  | Moscow |
|                     | Faculty of Physics, Department of General Physics and Molecular Electronics, Physics                 |        |

---

## VOLUNTEERING

- |                     |   |  |
|---------------------|---|--|
| Jul 2012 – Aug 2012 | It was "World4u" program, where I was engaged in the reconstruction of the village Marnay near Lyon |  |
|---------------------|---|--|
-
