MASTER IN INTERNATIONAL MANAGEMENT
PROGRAMME FOR ASPIRING GLOBAL BUSINESS LEADERS

A key difference of HSE Business School will be its focus on educating and developing globally competitive and socially responsible business leaders for the digital economy

HSE Development Programme 2030

In 2020, HSE University became 94th in THE World University Rankings in Business & Economics

In 2019, two of our Master Programmes were ranked 51st in QS Ranking of Master Programmes in Business Analytics and Marketing

HSE is the only Russian university in the best young world universities ranking by QS

HSE is # 1 in the ranking of entrepreneurial universities and business schools by Expert Center in terms of the number of start-ups

The Higher School of Economics (HSE University) is one of the top universities in Russia and one of the leading educational institutions in Eastern Europe and Eurasia in economics and social sciences. Since 2013, HSE University has been a member of the Russian Academic Excellence Project 5-100, a highly selective government programme aimed at boosting the international competitiveness of Russian universities.

The Master in International Management programme aims to develop high-quality graduates with a global mindset and striving for an international career in business.

What does the programme offer?

- Understanding of a global business environment
- Development of general and specialised management skills
- Practical experience of working with real-life business projects
- International experience at one of partner business schools
- Personal development and career orientation
- Access to global network of the GSB and the HSE University alumni and corporate partners
- A degree from one of the most prestigious and international Russian universities

Our Master in International Management programme provides students with unique access to the vast intellectual resources of HSE University and its global academic and corporate ecosystems. Our partnerships with top international business schools offer diverse opportunities for required semester abroad and for double degrees.

Prof. Anna Gryaznova
Associate Dean for Internationalization
MIM Academic Director

Our students participate in international mobility programmes with 30+ global business schools.

WHO IS THE PROGRAMME FOR?

Bachelor graduates from Russian and foreign universities and business schools with a motivation and ambition to develop skills and competences, essential for a successful international career.

No previous professional experience is required, but candidates should prove their achievement motivation, communication and leadership skills.

It is expected that most of the students will have a bachelor degree in business administration or a related field. Students without business educational background will be required to take a number of adaptation courses.

ENTRY REQUIREMENTS

Applicants must have a bachelor's degree or equivalent and be proficient in English. Applicants are considered for the admission based on the submitted portfolio and personal interview.

More on portfolio <https://www.hse.ru/en/ma/mim/requirements>

More information on how to apply <https://www.hse.ru/en/ma/mim/apply>

Important dates:

- There are two admission tracks, one reserved exclusively for foreign nationals (international track), and the other open for both Russian and foreign nationals (general track).
- The application period for the international track begins on November, 1 2019 and ends on August, 14 2020. 15 places, reserved exclusively for foreign nationals, are offered on first-come-first-served principle.
- The application period for the general track begins on June, 22 2020 and ends on July, 31 2020.

FINANCING YOUR STUDY

22 government-sponsored places

30 tuition-based places, including 15 places reserved for foreign nationals

HSE scholarships

Russian and international students may apply for HSE scholarships that provide full or partial coverage of tuition fees.

Corporate grants for participation in study abroad programme

Corporate partners of the MIM programme support students participating in the study abroad programme. Grants are offered with consideration to individual circumstances, motivation and performance.

Research jobs

The HSE University and its institutes are regularly looking for students to assist with on-going research projects. Research assistants help faculty with literature reviews, collecting and processing data, planning and conducting experiments and field research, preparing papers for publication.

Teaching assistant jobs

HSE University offers students possibility to become teaching assistants and help HSE instructors with different routine and creative tasks: assisting instructors in class and with preparation for the class; developing case studies, business games, tests, trainings, computer simulations, preparing hand-out materials and assignments for student homework; organising individual and group consultations; assisting visiting faculty members.
