

**6th International Russia Longitudinal Monitoring Survey of HSE User Conference,
Moscow, May 26-27, 2023**

Organizers: National Research University “Higher School of Economics”, Moscow; Research Center “Demoscope”, Moscow; Institute of Sociology of FCTAS Russian Academy of Sciences, Moscow; Carolina Population Center, University of North Carolina – Chapel Hill, USA.

Conference continues to provide a forum for a scientific discussion of the developments that took place in Russia in the last thirty years. We invite economists, demographers, sociologists, political scientists and specialists in public health to gather and share their insights gained from the data of the Russia Longitudinal Monitoring Survey of HSE. Researchers may submit either a complete paper, or an extended abstract. Priority will be given to those who make use of the longitudinal features of the data and/or provide cross-national comparisons.

Working languages are Russian and English (with simultaneous interpretation).

The 6th International RLMS-HSE User Conference will be held online.

Submission:

For full consideration, proposals must be submitted to rlmshse2023@gmail.com by **March 25, 2023**.

Notices of acceptance will be sent by **April 25, 2023**.

We expect extended abstracts to be between two and three pages long and describe the background, main objectives and the RLMS-HSE data analyzed.

Papers/abstracts must include:

- Title of the presentation
- Three to five keywords
- Corresponding author’s name, title, affiliation, address, telephone number and email address
- Co-authors’ names and affiliations
- Short curriculum vitae (for junior researchers only)

If you have any questions, please contact us at rlmshse2023@gmail.com
