– **Review of Daria Salnikova's internship period at the Chair of Methods of Empirical Social Research at the University of Bamberg**

20 January 2019

Dear Madam or Sir,

Daria Salnikova completed her internship period at the Chair of Methods of Empirical Social Research from 5 November to 5 December 2018 under my supervisor. During this internship period Daria Salnikova regularly worked in the provided office and regularly participated at our joint social activities (such as joint lunch meetings of researchers).

I had several very intensive and very productive meetings with Daria Salnikova in order to advise her on writing her academic journal articles and to discuss her scientific research ideas but also ideas of joint future scientific collaboration. In addition Daria Salnikova very actively engaged in scientific exchange and collaboration with other researchers at the University of Bamberg. She presented her empirical work in the research seminar of the Chair of Methods of Empirical Social Research.

Daria Salnikova fulfilled her tasks with fullest satisfaction and, thus, turned her internship into a very productive and successful period. It was great to host Daria Salnikova. We have agreed to continue our scientific collaboration and I would be very glad to welcome here again in Bamberg in the future.

Sincerely,

Handwritten signature of Michael Gebel in black ink.

(Prof. Dr. Michael Gebel)
