"Comparative sociology is not a particular "The International Comparative Social Research program is designed to provide branch of sociology; it is sociology itself, in insight into how societies are evolving, and so far as it ceases to be purely descriptive and aspires to account for facts " to what extent given social policies are successful "

IMPRESSIONS OF OUR LECTURERS

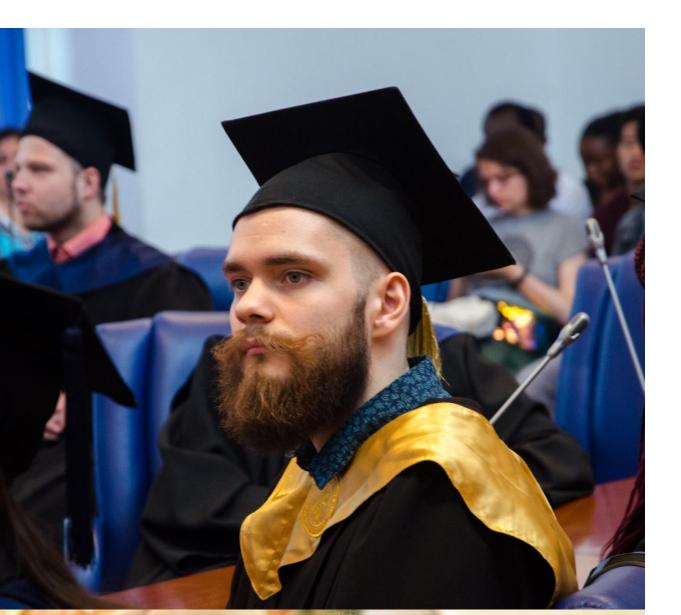

- "HSE has established a world class MA program in Comparative Social Research. Its major strength is how it synergizes dedication, skill and diversity among both its student body and faculty. This program has created a real spirit."
- (Christian Welzel, University of Lüneburg, Germany and HSE I-Lab CSR)

IMPRESSIONS OF OUR RUSSIAN STUDENTS

Самое приятное впечатление на меня произвело стремление преподавателей и академического руководителя поместить максимум в образовательный процесс. Это выражалось не только в высокой компетентности преподавателей и в качестве запланированных по программе курсов, но и в обилии внеклассной деятельности.

(Daniil Kolokolenkov)

Я поступила на эту программу, так как видела в ней шанс получить уникальный жизненный опыт. У меня уже был диплом бакалавра более прикладного характера и я сделала ставку на международную программу, чтобы поделиться и перенять знания у других учеников и профессоров. Программа оказалась очень насыщенной в плане теоретических знаний, очень разнообразной в плане людей, у которых я училась и с которыми я училась, а так же очень познавательной.

(Elizaveta Petrosyans)

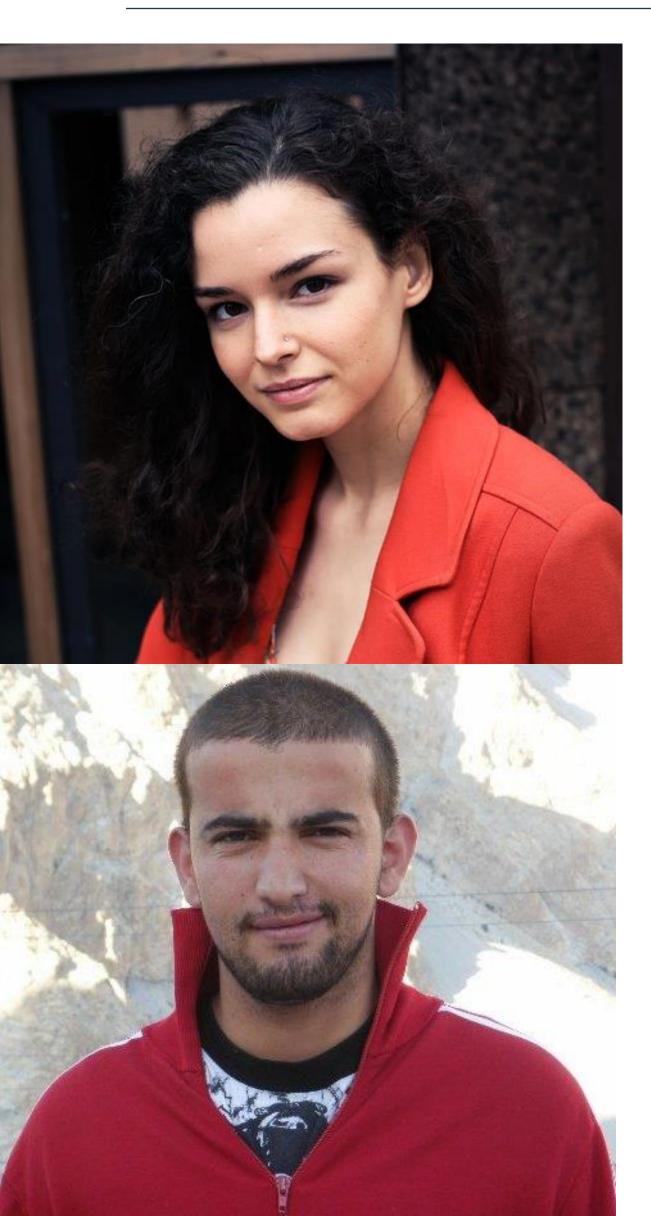

IMPRESSIONS OF OUR INTERNATIONAL STUDENTS

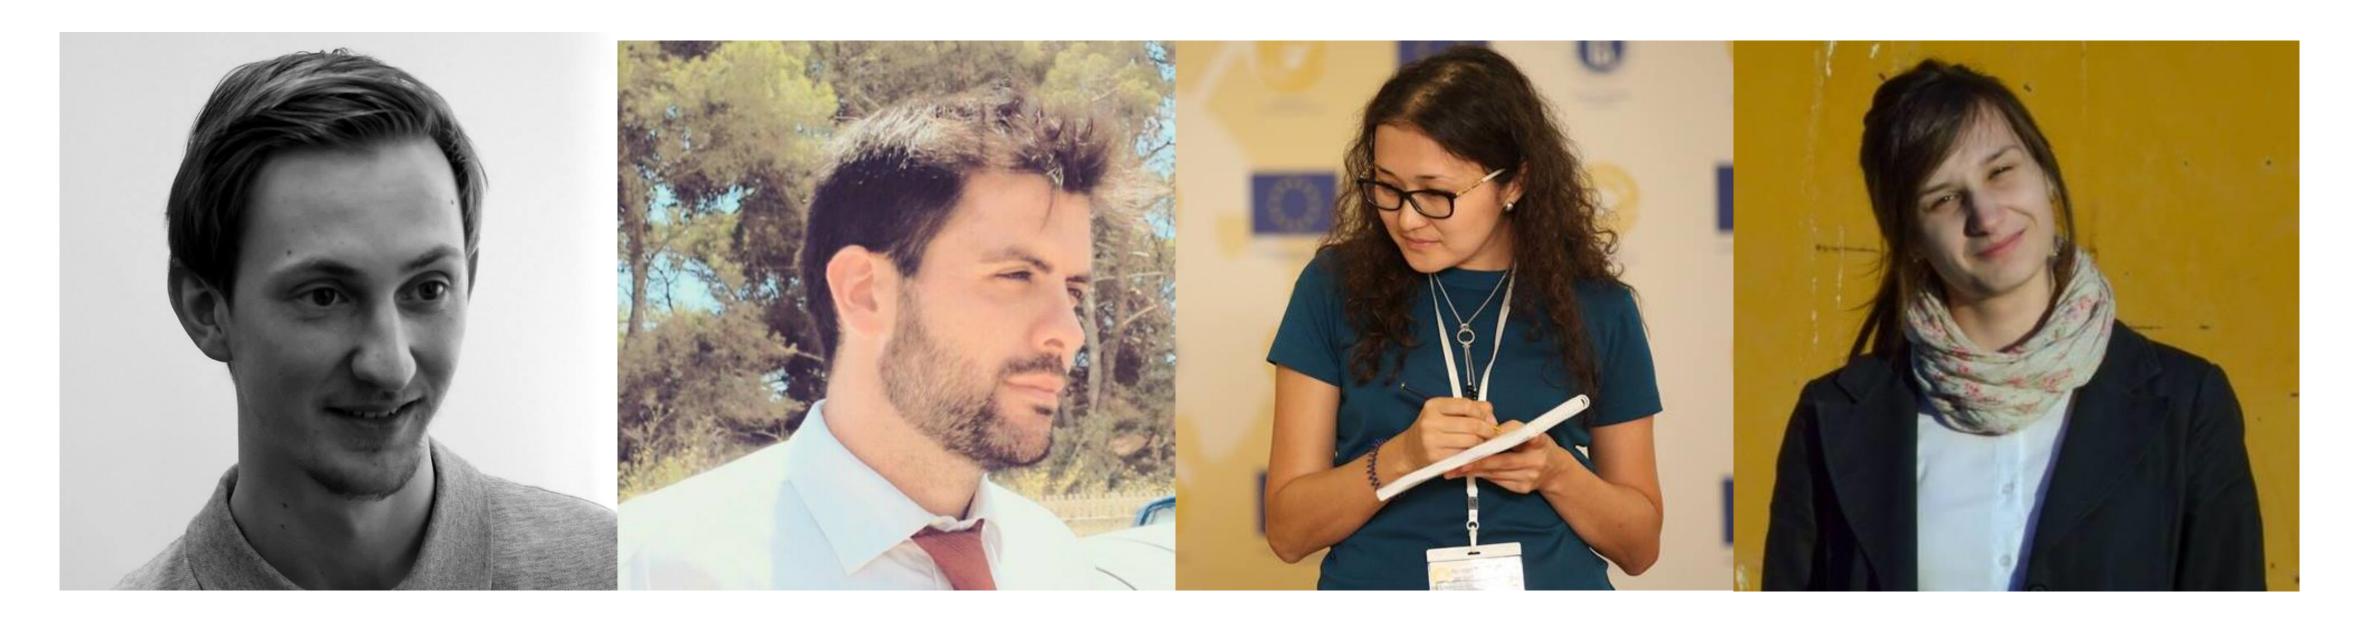

This programme has incorporated the best of both worlds. While intense theoretical discussion is popular in US sociology, Russian academia prides itself on research. At HSE, I have already written many theoretical papers, but also worked in the SPSS, Atlas.ti, and R software packages.

(Jacqueline Phillips, USA)

The Master's program at HSE in Comparative Social Research offered me a great opportunity to get out of my comfort zone and learn something novel. The program gave me the freedom to pursue research in my area of interest, which could help me to a great deal for my further studies."
