About the Summer University

The Summer University at the HSE is an innovative program designed to provide students, PhD candidates, postdocs and professionals from around the world with unique opportunities to enhance their knowledge in area studies and beyond. Offering a broad interdisciplinary selection of courses, the Summer University is open to all students and will be of particular interest to those who study International Relations, History, Political Science and other social sciences and the Humanities. Many of the courses, taught in English, focus on politics, history, economics and culture of Russia and Eurasia. Computer Science, Engineering and Math courses are also on the list.

**The Summer University will be offered
June 20 – August 20, 2019,
with most courses lasting 2-4 weeks.**

IVAN PROSTAKOV

Vice Rector

Dear friends and colleagues,

For six years and counting, HSE's Summer University has brought together over 200 students from around the world, who are eager to learn new things and meet people, in addition to enjoying Moscow's summer weather.

I believe that our university is the best place for such a programme. Here, you will have an opportunity to take almost 30 courses with world-class teachers, including such subjects as Russian language, while also getting to explore one of the great cities of the world – Moscow which offers many opportunities for entertainment to visitors from around the globe. Furthermore, Summer University also gives an opportunity to learn Russia's other great cities, including St. Petersburg and Vladivostok. This year, uniquely, we are welcoming learners from Europe, Asia and the Americas, as well as Russian students from one of the country's most prestigious institutions – Far Eastern Federal University (FEFU). This will be a welcome addition for all of us, as well as a chance for HSE to expand its global outreach.

We are very pleased to welcome you to HSE. It is my hope that you find your time with us both informative and fun, as well as a chance to make new friends and that I will see you again!

HSE Summer University

Why choose **Summer University program** at HSE?

- HSE Summer University is a great opportunity not only to visit the capital of Russia but to study in one of the leading Russian Universities enlisted in Russian Academic Excellence Project 5-100;
- Educational program consists of more than 40 courses all taught in English—in a variety of subjects ranging from politics, economics, management, math, computer science and international relations to Russian history and culture. These courses are taught by leading instructors at the university;
- Besides that, Summer University participants are engaged in a regular educational process. All courses have milestones that give students the opportunity to obtain ECTS credits (from 2 to 12);
- Moreover, courses take place in St. Petersburg and Nizhny Novgorod (HSE campuses) and will be accompanied by a rich cultural and social program that will introduce participants to the ‘student environment’;
- Additionally it is possible to begin to study Russian or to work on improving Russian skills on the courses of Russian Language;
- Finally, the Summer University is truly international! Our students represent more than 35 countries of deep historical roots and great cultural heritage.

Russian language 7 weeks	5	June, 24 - August, 18

COURSE DESCRIPTIONS

Russia in the Changing World

Maxim Bratersky

*Professor: Faculty of World Economy and International Affairs /
School of International Affairs*

This course has been designed especially for international students majoring in international relations, political science, and global economy. In contrast to international relations courses offered at other Russian universities, this course focuses on Russia's vision of the international environment to the west and east and is built around specific issues of a political and

economic nature. Many of the topics included in the course lend themselves to discussion and debate, so different points of view on various topics are offered as much as possible in the recommended literature. The course does not have any specific prerequisites, although some knowledge of Soviet History, International Relations, and Geography of Eurasia will be helpful.

BRICS: Is the Glass Half Full or Half Empty

Mikhail Karpov

*Associate Professor: Faculty of World Economy and International Affairs /
School of Asian Studies*

The main learning objective of the course is to give students a practical idea of the origins, current state of affairs and most probable future developments of the BRICS in the

World economy and politics, as well as to illustrate the most important features of the dynamics of bilateral relations between the BRICS countries.

EU-Russia Relations and the Future of Europe

Dmitry Suslov

*Senior Lecturer: Faculty of World Economy and International Affairs /
School of International Affairs*

Kirill Entin

*Research Fellow: Faculty of World Economy and International Affairs /
Centre for Comprehensive European and International Studies (CCEIS)*

This course is designed to offer an in-depth study of the EU-Russia relationship. It will look at the history of that relationship and analyze its legal and analytical framework. The course is designed to cover EU-Russia relations from multiple angles (e.g., the role of values and interests, and the influence of relations between Russia and individual member states) and in a number of spheres

and dimensions (e.g., global politics, relations in the post-Soviet space, security, energy, and transport). It will also address how the relationship is currently developing, as well as key issues, such as negotiations on a new strategic partnership treaty, prospects for a visa-free regime and the partnership for modernization project.

US-Russia Relations Between the Cold Wars

Dmitry Suslov

*Senior Lecturer: Faculty of World Economy and International Affairs /
School of International Affairs*

The course contains conceptual analyses and practical study of the US-Russia relations since the end of the Cold War. It explores structural problems and theoretical patterns of the relations, as well as analyzes their evolution during the last 20 years. Special attention is given to analysis of US-Russia relations under the first Obama Administration, known as the 'reset'. An important feature of the course is that it approaches

problems of US-Russia relations and their development in the wider context of the two countries' foreign and domestic policies during a given period of time, as well as of the challenges and opportunities the sides have faced in the international environment. US-Russia relations are thus dealt with as part of the bigger picture of the two countries' development and the evolution of their international positions.

Russia's Soft Power: What It Is and What It Might Be

Dmitry Suslov

*Senior Lecturer: Faculty of World Economy and International Affairs /
School of International Affairs*

Soft power is widely considered to be a missing part or at least a weak point among Russian foreign policy instruments, both globally and regionally. Without ideology, with sluggish and one-sided economy, pervasive corruption, ineffective governance and poor rule of law, contemporary Russia cannot be an attractive model comparable to either the US and the EU, or

rapidly growing and successful China. Thus, the argument goes, it is compelled to use hard power (both military and economic), as well as skillful diplomatic art, to promote its interests, while competition between Russia and the West at the former USSR is widely described as a clash between the Western soft and Russian hard power.

Evgeny Kanaev

*Professor: Faculty of World Economy and International Affairs /
School of International Affairs*

The "clash of soft powers" in Asia-Pacific. The specificity of Chinese, Japanese, Korean, Indian and Southeast Asian soft powers: points of convergence and divergence. An assessment of Western soft power capabilities in Asia-Pacific. Asia-

Pacific soft power discourse: between nationalism and identity-building. Soft power and public diplomacy: the Asia-Pacific dimension. "Leadernomics" and "nationnomics" in Asia-Pacific: complementarity or contradiction?

Global Actors in Public Policy

Nina Belyaeva

*Department Head, Professor: Faculty of Social Sciences /
Public Policy Department*

This course is aimed to give a coherent definition of global actors, their types, aims, and influence have in a globalized world, particularly to consider the commercial and trade organizations and global civil society institutions as global actors. During the classes, the students will learn to analyze and compare global actors, global institutions and global

instruments, understand modern forms of international conflict management and other global agenda issues and examine the roles of states, intergovernmental actors and, military-political organizations as well as on international conflict management, peacekeeping and nuclear non-proliferation.

Russian Space and Russian state

Sergei Medvedev

Professor: Faculty of Social Sciences / School of Political Science

The subject matter of the course is Russian space. The course deals with its structure, topology, history, modes of appropriation and governance. It problematizes the idea of space as a key to understanding politics and governance of Russia, as well as the national economy, society and culture. The course begins with exploring the phenomenology of Russian space: its structure, topology and specific features, including notions of "enormity". It then proceeds to explore Russian space in its relation to state power. It examines the ways in which geography shaped Russian history and politics. The enormous space has largely determined the format of Russian statehood; indeed,

governance in Russia is largely about the relationship between space and the state. The space-state relationship is reified on various levels: economy, politics, and administration, security and social mobility, nationalism, and imperialism, culture and language, habits and ways. The course looks into each of these levels, discovering specific ways of interaction between the space and the state.

The course includes city workshops with the analysis of art and architectural objects (Red Square, Kitai Gorod, VDNKh, subway and the Tretyakov Gallery). Additionally, the course may include film showings and visits to exhibitions and museums.

Advances in Decision Making Theory and Applications

Fuad T. Aleskerov

*Head, Professor: Faculty of Economic Sciences /
Department of Mathematics*

Alexey Leonidovich Myachin

*Associate Professor: Faculty of Economic Sciences /
Department of Mathematics*

We make decisions every day and every hour: which summer school to choose, which pullover to buy, where to go on vacation. The course presents the core concepts of rational and efficient individual and social decisions, including political decisions.

Topics to be covered include:

- Decision making: why, when and under which circumstances?
- Aggregation models
- Applied models
- Po
- Voting manipulation
- Organizational power distribution

Challenges to EU–Russia Economic Links

Vladimir N. Zuev

Professor: Institute of Trade Policy / Department of Trade Policy

The course presents the analysis of the major challenges to the EU – Russia links. There is a clear contradiction between the huge potential for cooperation and the current state in relations, which are at a mess. This course, while disclosing the fundamentals and a historical retrospective of relations between Russia and the EU, is focused on the most recent developments in Europe, including unrest in Ukraine, and their impact on relationships in Europe. Large part of the course is

dedicated to problems of economic cooperation, discovering the burden of economic sanctions. The aim is to understand the reasons for the current problems and to dress up the likely scenarios of the eventual development of links with largely unused potential for partnership. Topics included in the course ignite discussion and debate. Different points of view on different aspects of the cooperation dilemmas are provided to create an objective vision of the controversial issue.

Politics and Economics of Energy

Vladimir N. Zuev

Professor: Institute of Trade Policy / Department of Trade Policy

This course puts a test on conventional theoretical approaches on global energy issues. It is based upon empirical evidence of the current trends on the global energy markets, unveiling policy issues in the study of energy that span across political science and international economics. The course takes a very broad view and introduces students to energy as understood by scholars of international security and cooperation as well as economic and political development. We investigate the major policy issues of the day:

the development and current status of the global energy markets, with particular emphasis on Russia, EU, China and the USA. The role of the international organizations is given the focal place, especially the historical importance, the current development and future relevance of OPEC. The course attributes a special role to the influence on the industry of the technological progress in alternative energies and the “threat” of fracking to traditional gas producers.

Behavioral Economics

Nadezhda Shilova

*Senior Lecturer: Faculty of Economic Sciences /
Department of Theoretical Economics*

A frequently heard complaint from students of economic theory goes something like this: “But it doesn’t work like this in real life!” Unfortunately, it takes a long time of studying general cases to arrive at the realization that life itself is a special case of a general rule. During this course we will attempt to reconcile theory and practice: we

will see how mental and emotional filters shape the choices people make individually and in groups. We will also try to understand what rational choice is, and you will conclude for yourself which rational patterns to follow (or not follow) in real life whenever you have to make a decision as a consumer or as a producer or even as a policymaker.

Doing Business in Russia

Tatiana Grishchenko

*Associate Professor: HSE Campus in St. Petersburg /
St. Petersburg School of Economics and Management /
Department of Management*

The course is designed to introduce international business in Russia in historic retrospective up to the modern changes in the global business landscape. A key aspect during the course is to have an opportunity to observe and assess the performance of the international companies which have made Russia their home.

The course provides theoretical framework and practical insights for organizing and running business in Russia. Trade disputes and international sanctions' influence on both import-export operations and FDI in Russia are addressed in the frames of the course.

The course is aimed to increase students' capacity to think strategically and practically about

starting and doing business in Russia. Crucial attention is devoted to insights, sources of information and practical tools for foreign business looking at Russia as an investment destination.

The course will enable students to face the challenges of cross-cultural management and cross-cultural sensitivity, while working in a modern, rapidly changing environment. It includes cross-cultural issues faced by international companies operating in Russia and provides an active development of the students' cross-cultural competence. The idea is to appeal to students on a practical level and provide competencies, insight and meaningful information for them which could be useful in their future career.

Six Sigma, Innovation and Entrepreneurship

Sergey V. Zykov

*Associate Professor: Faculty of Computer Science /
School of Software Engineering*

This course is vital for the emerging digital age as it puts together the cutting edge methods of process improvement and applies them to state-of-the-art innovative contexts. The Six Sigma and related methods discussed in the course allow fine-tuning of business processes. The focus, however, is their practical application for innovative entrepreneurship. Therefore, we outline the universal principles and

best practices that make businesses successful. In brainstorming sessions, we will outline patterns and anti-patterns that typically help and hinder the state-of-the-art innovative businesses. Therewith, the main course outcome is the successful students ability to make justified decisions on business planning and development in terms of process improvement and innovation.

Introduction to Artificial Intelligence: Methods, Models, Algorithms

Konstantin Yakovlev

*Senior Lecturer: Faculty of Computer Science /
Mathematical Methods of System Analysis: Joint Department with the
Research Institute of System Analysis (RAS)*

Aleksandr I. Panov

*Associate Professor: Faculty of Computer Science /
Intelligent Technologies in System Analysis and Management: Joint
Department with Federal Research Center of Computer Science and Control
of Russian Academy of Sciences*

This is an introductory course to Artificial Intelligence. We will present the basic AI concepts, such as machine learning, neural networks, path planning, image recognition etc. Programming skills are welcome, but

not required, i.e. optional. It's up to you whether to do a programming assignments in Python or not. Assessment will be carried out via online quizzes.

REU (Research Experience for Undergraduates) in Mathematics

This program is a part of the HSE Summer University and is designed for undergraduate students majoring in Mathematics or related areas. Participants will work on research projects under supervision of distinguished mathematicians. Guaranteed are at least 8 hours of consultations by assigned advisors

and their assistants. A written report is expected as a result of the project; it will be reviewed and evaluated by the advisor. The program takes three weeks during the period from June 20 till August 20, 2019. The exact time span of the program is to be chosen by the participant and confirmed by the advisor.

Fake news, post-truth and digital media: Inquiry in relationship between media and politics

Iliya Kiriya

Head, Professor: Faculty of Communications, Media and Design / School of Media

Post-truth is generally understood as disconnection of the politics from the policy, thus the transformation of the electoral element of the contemporary democracy into purely symbolic entity not related with the real power and governance. During this course we will examine the role of media (including professional press but also the digital platforms of self-expression) in this process. Consequently, main goals of this course are to provide some general theoretical understanding how in contemporary digital environment media and politics are related between them and then provide some insight on relationship of

media and politics in post-soviet world. Such understanding will enrich the general set of possible methods which could be used to study a contemporary media system and its implication on the society. Such methods are generally based on social sciences methods and cover political science, social psychology, sociology, cultural studies, political economy and regional studies. Second main goal is to provide some basic knowledge of Russian and post-soviet media because main examples used on this course are based on the deep analysis of Russian media system and Russian society, public sphere and political life.

A Glimpse of Russian History

Oleg Morozov

Lecturer: Faculty of Humanities / School of History

This course introduces students to the social, cultural, and political history of Russia from the Muscovite Tsardom in the sixteenth century to the collapse of the Soviet Union in 1991. It focuses on the vital issues of Russian history, including, but not limited to: the formation of Moscow state in the early modern period, Peter the Great's "revolution from above" in 1700-1725 and its cost, causes and consequences of Russia's enormous territorial growth and its multiethnic composition in the

eighteenth and nineteenth centuries, World War I and the fall of the Russian Empire in 1917, Stalin's repressive regime, Soviet nations in World War II, Perestroika and the collapse of the Soviet Empire. Within these issues, we will also explore how history is used by politicians and other public figures in contemporary Russia, how it shapes popular myths and stereotypes about the country and its people, and how it provokes heated disputes among different social, ethnic, and religious groups.

Human Rights Law

Maria Sole Continiello Neri

Research Fellow: Faculty of Law / Centre of Comparative Law

The main purpose of the course is to provide international students a basic knowledge of International Human Rights Law, focusing on the principal international and regional legal instruments for the protection and the promotion of fundamental human rights and freedoms, as well as addressing the international judicial and quasi-judicial human rights bodies at the universal level and the ECHR. After a short overview of the historical development of IHRL, the first part of the course will focus on the UN treaties and bodies for the protection of human rights. The second part of the

course will be dedicated to the study of the regional systems of protection of human rights. In particular, the course analyzes the European Convention on Human Rights and the rights protected therein, such as the right to life, the prohibition of torture, inhuman and degrading treatments, the right to liberty, the right of fair trial, the right to opinion and to freedom of speech, the right to family as well as the prohibition of discrimination etc. Finally, the course will explain the methods of international judicial and quasi-judicial human rights bodies at the universal and regional level.

Russian Language

We offer the Russian language course for foreigners in Moscow, which provides a unique opportunity not only to learn the language, but to dive and know the culture, the history of the capital and the country. The course varies in level. If you always dream to learn one of the most complicated languages, but was afraid to start, this course for beginners is for you. After completion of the course, you will be able to communicate on everyday themes, you also be able to read and write short texts, and will know the bases of the grammar. It will help you to express your own thoughts, make purchases in a shop, use the local public transport, discuss the weather with people around, etc. If you are got acquainted with the basic grammar of the Russian

language and you can support a dialogue in some routine situations, and you want to enrich your active and passive vocabulary and refine your knowledge in grammar, this course of medium level is for you. You will get the necessary training to improve your command in both oral and written form. You will feel free to communicate with native speakers and cope up with a significant number of problems and tasks you encounter in the everyday life. After completion of the course for advanced students, you can satisfy your main communicative needs in all areas of communication and pursue professional activities in Russian language. You will be able to speak fluently, understand and appreciate Russian culture.

Cultural Programme

HSE Summer University Programme offers a variety of activities to make the international students' stay in Moscow special. For instance, Welcome Orientation Sessions that provide participants a good chance to get to know each other, all kinds of sightseeing events around Moscow and Russian Language Crash Hours that will show that the Cyrillic script is not scary at all. The exact time of these events will be available for everyone in the official SU schedule, on our Instagram @hse_summer and on our Facebook group HSE Summer University.

Student Buddies

Buddy programmes are in place at many universities around the world and HSE is no exception. Support, advice, integration into cultural environment and new fellowship – that's what the Buddies' Club is for.

Summer University participants can turn to members of the Buddies Club for advice and assistance. Buddies have good command of English, are well familiar with life at HSE and can assist international students with living in Moscow and other everyday matters.

Student buddies can:

- Pickup up international students at the train station that connects to the airport they arrive in, accompany them to the dorm and help with checking in and getting acquainted with the surrounding area;
- Show international students around the university and all its facilities;
- Organize and hold various cultural outings such as exhibition visits, museum excursions, city walks and other types of recreational activities;
- Organize Russian Language Crash Hours in which international students will have an opportunity to learn basic Russian useful in their day-to-day interactions with people around and learn about the culture in the process;
- Organize and hold Welcome Orientation Sessions that will allow international students to get to know their fellow students from around the world through a variety of group activities and to better adapt to new surroundings, and have lots fun, of course!
- Accompany international students during emergencies (e.g. to the hospital, post office, and various official establishments);

Bachelor's Programme Foreign Languages and Intercultural Communication – is an innovative educational programme that combines traditional approaches to foreign language instruction with state-of-the-art practices. We aim to provide our students with personalized learning tracks, by offering a selection of foreign languages, areas of specialization, elective courses and other fields of study to choose from. Having mastered two foreign languages, our graduates can apply their skills and specific competencies to pursue careers in education, translation / interpreting or intercultural communications.

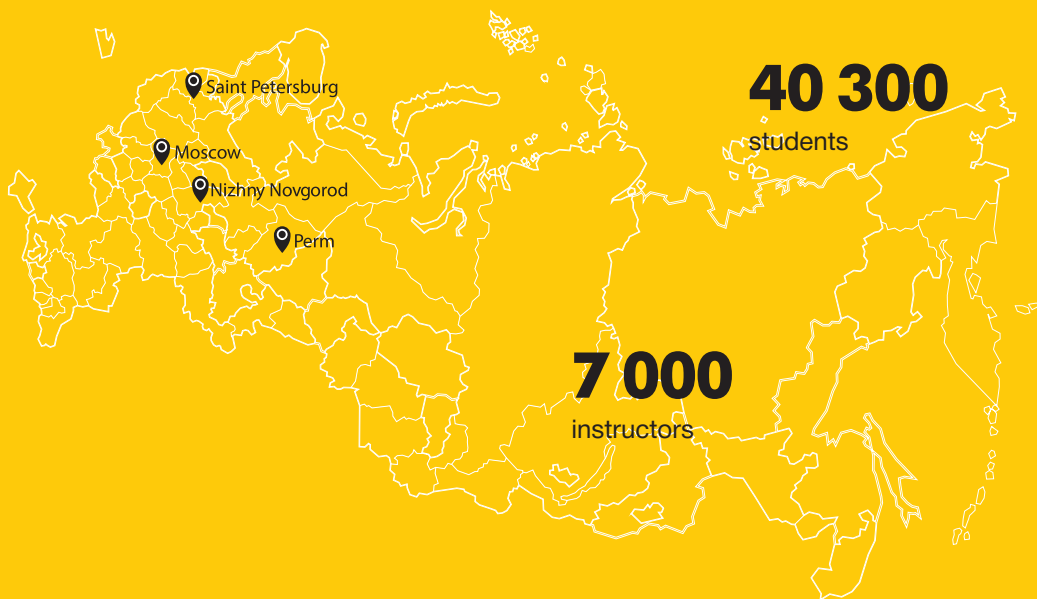

Education at HSE

Established in 1992, HSE University was first founded in Moscow to train Russian economists for the post-Soviet economy.

It quickly transformed into an interdisciplinary university, and over the course of the past two decades, HSE has grown more than ten times in size to become one of the most competitive and well-respected universities in Russia.

“The quality of professors and the knowledge they impart, the experience and intensity of studying, the learning skills that we gain at HSE, it all meets the best world standards.”

Andrei Kaplan,

HSE, ICEF program graduate (2014)

HSE Main Buildings

20 Myasnitskaya Ulitsa
and 11 Myasnitskaya Ulitsa

The main HSE buildings are located within a 5-10 minute walk from Lubyanka, Kuznetsky Most, Chistye Prudy, Turgenevskaya or Sretenskiy Bulvar metro stations

The lectures will be held at 11 Myasnitskaya Ulitsa and 20 Myasnitskaya Ulitsa.

The study rooms are also located at 20 Myasnitskaya Ulitsa.

20 Myasnitskaya Ulitsa is a historical building dating back to the end of the 19th century. The famous Russian

engineer Vladimir Shukhov—designer of Shukhov broadcasting tower in Moscow—worked in this building at the beginning of the 20th century. The building now houses several HSE faculties, as well as the Rector's office and various administrative departments.

11 Myasnitskaya Ulitsa was recently built for the HSE. It boasts a modern interior and a historical facade that blends in well with the surrounding early 20th century buildings.

CAFETERIAS

11 Myasnitskaya Ulitsa

open **Monday-Friday 09.00 – 18.00**

20 Myasnitskaya Ulitsa

open **Monday-Friday 09.00 – 17.00**

There are two cafeterias – one in each HSE building in Myasnitskaya Ulitsa. Breakfast, lunch and dinner are prepared exclusively from fresh, high-quality products. The menu is very diverse, with at least five kinds of salads, hot and cold appetizers, and soups. Hot meals always include a choice of meat, poultry, and fish, vegetables, and side dishes, including a choice of rice, buckwheat, or potatoes. Those who

are looking for low-calorie options or who do not eat spicy food or food high in sodium are offered meals from a special healthy choice menu. Cafeteria prices are designed for a student budget: the average cost of full-course meal is about 200 rub. The dining room usually has plenty of space (except for 'rush hour' at 1:00-3:00pm), and is a great place to enjoy a cup of tea, prepare for a class or simply relax.

Library

20 Myasnitskaya Ulitsa
www.hse.ru/en/library

OPENING HOURS:

June 20 – August 1: Monday - Saturday 10.00 – 23.00

August 1 – August 20: Monday - Saturday 10.00 – 16.30

Summer University students are able to use the HSE Library, which is located at 20 Myasnitskaya Ulitsa. No special library card is required. Electronic resources can only be accessed from the library's media centre; remote access to electronic resources is not available.

Library subscriptions to electronic resources include:

- Leading journal publisher and aggregator platforms (e.g. ScienceDirect, SpringerLink, SAGE, T&F, OUP, CUP, EBSCO, ProQuest, InfoTrac)
- Electronic books
- A&I databases, such as MathSciNet, EconLit and SocIndex
- Citation-based resources, including both Web of Science and Scopus
- 1 million full-text dissertations from ProQuest Dissertations & Theses

- Statistics resources from OECD, IMF, and the World Bank
- Special business resources, such as Factiva and GMID
- QPAT patent database and various Russian e-resources

Library etiquette

- Leave your bags in the check-room
- Keep quiet
- Do not talk on the cell phone in the reading halls, switch the sound off
- No food or drinks are allowed in the library

**For more information, please check <https://library.hse.ru/en/>
20 Myasnitskaya Ulitsa <https://library.hse.ru/en/>**

Internet Access and SIM Cards

Free cable internet is available in the HSE dormitory and you can use wireless internet for a fee if you buy a SIM card from a Moscow provider.

All HSE buildings offer free Wi-Fi access.

Free Wi-Fi login details

Network: **HSE** Login: **hsequest** Password: **hsepassword**

Housing

Summer University students may be accommodated in one of the HSE's dormitories.

All students are offered shared accommodation (rooms for 2-3 people).

Overview

Tenants have 24/7 access to the dormitory. Guests are welcome from 8 a.m. until 11 p.m. Visiting relatives and friends are not permitted to reside in the dormitory.

Students' bedrooms are arranged on the basis of double occupancy. Each room is equipped with the following items:

- desks
- bookshelves
- a closet
- single beds
- mattresses, blankets and pillows
- bed linen and towels
- free Internet access

Residents are asked to purchase their own cutlery and kitchen utensils, laundry detergents, shampoo and shower gels. Everything provided in the room is the property of the University, and students will have to pay if damages and loss occur. Rooms are provided only for registered students, and no one else is permitted to stay overnight in the room.

Check the rent fees on hse.ru/en/dormitory.

Payment steps

Pick up a payment form at the dormitory administration. Fill in your name and pay the amount at a local bank or ask your buddy to help you. Submit the payment receipt to the dormitory administration.

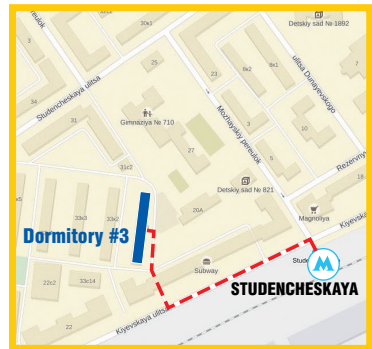

Dormitory #4

metro station

“Studencheskaya” (light blue line),

33/1 Studencheskaya Ulitsa

At the Kievskaya (Киевская) station take the passage stairs up to the light-blue metro line, then take the train that goes away from the centre to the Studencheskaya (Студенческая) station (it is the next station from Kievskaya). Be careful, there are two directions the trains take from that platform – towards the Kuntsevskaya (Кунцевская) station and towards the Mezhdunarodnaya (Международная) station. An electronic board specifies the estimated time (min/sec) in which the next train is arriving. You need to follow the Kuntsevskaya (Кунцевская) times on the board.

After you arrive at the Studencheskaya (Студенческая) station, at the exit, turn left and walk along Kievskaya Ulitsa (Киевская) until you reach building no. 20, then turn and walk through the second arc. The dormitory (building 33/1) will be right in front of you.

Dormitory #5

metro station

“VDNKH” (orange line)

7 Ulitsa Kibalchicha

Take the orange metro line heading north towards Medvedkovo. If you travel from the center take the last train car. At VDNKh station take the left exit to the small park and walk through it towards the Tikhvinskaya Church. Then straight down Ulitsa Tserkovnaya Gorka to Ulitsa Kibalchicha. Turn left and walk towards building 7 – the dormitory #5.

Dormitory #1

metro station

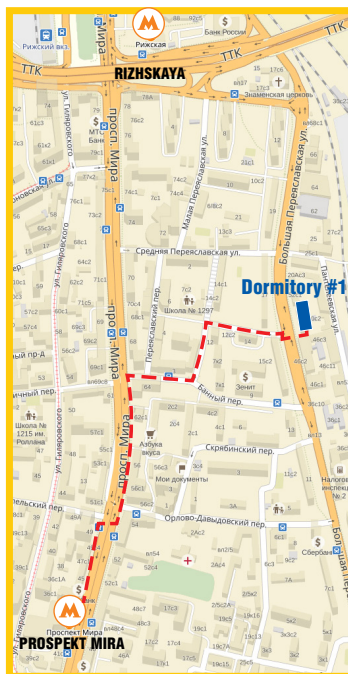

“Prospekt Mira” (orange line)

**50 Ulitsa Bolshaya Pereyaslavskaya,
Building 1**

A ten-minute walk from the metro station “Prospekt Mira” (orange line) towards Rizhsky Railway Station or via trolleybus 9 or 48 to the stop “Banny Pereulok”. Next turn to Banny Pereulok, then walk along Glinisty Pereulok up to Bolshaya Pereyaslavskaya Ulitsa. The dormitory is located on the opposite side of the street.

A fifteen-minute walk from the metro station “Rizhskaya” (orange line) to Bolshaya Pereyaslavskaya Ulitsa.

Take a trolleybus 14 from the metro station “Komsomolskaya” (red line) and go to the station “Bolshaya Pereyaslavskaya”.

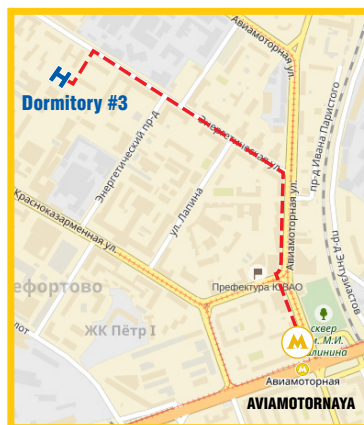

Dormitory #3

metro station

“Aviamotornaya” (yellow line)

10 Energeticheskaya Ulitsa, Korpus 2

From the metro stop “Aviamotornaya” walk along Aviamotornaya Street towards Lefortovsky Market, then turn left on Energeticheskaya Street. Walk for 5-7 minutes on Energeticheskaya until you reach the campus of the Moscow Power Engineering Institute.

Your registration is a confirmation of your lawful stay in Russia. You shall submit documents the next working day after crossing the border of the Russian Federation.

Every time you leave and enter Russia, and receive a new migration card, you must apply for new migration registration. If you have been registered in another city in Russia, please make sure that you again apply for your registration after your return to Moscow.

If you are staying in a dormitory, the dormitory staff will assist you in applying for your registration at the local territorial office of the Russian Ministry of Internal Affairs.

To apply for your migration registration and obtain your registration slip, please contact the passport registration officer at your dormitory.

Migration card

Keep the migration card that you receive at the passport control on your entrance to Russia. This document has to be presented at the passport control when you leave.

If you lose the card, immediately address the Visa & Registration Unit for instructions on how to receive a new card.

Keep your registration and your migration card with you at all times.

Also, carry photocopies of these documents with you just in case.

Public transport

Metro

The Moscow metro is efficient, fast and easy to use. However, only few stations still have signs translated to English and/or wheelchair accessible. All metro lines have their own colour. All radial lines intersect the brown ring line. Metro entrances are marked with a large red letter “M”.

Students can use their social (transport) card to use the metro at a lower price. Other fares and tickets are also available at metro cashiers.

The metro is open from 6 AM to 1 AM.

Be sure to follow the metro safety guidelines:

- **Do keep** an eye on your belongings and pockets, especially in crowded areas.
- **On escalators:** stand on the right side, pass up or down on the left side holding the handrail; stand behind the protective strip. Never sit or place objects on the stairs of escalators, do not run along them or enter an idle escalator.
- **On platforms:** stand away from the platform edge until the train stops completely, and after it stops, clear the space at the coach doors to let passengers depart. Never descend onto the metro tracks or put items on them.
- **In coaches:** do not lean against the doors, or open them while moving, allow passengers to enter and exit the train. Do not use the “passenger – driver” intercom system unless necessary. Never place luggage on seats. Always hold the handrail while in a moving train coach.

Ground public transport

Moscow's public ground transportation includes buses, trolley buses, and trams.

Students can use their transport card on all types of public transport. If needed, you can also purchase tickets from drivers or in kiosks near the stops. Uniform passes are also available for purchase in metro stations.

Ground transport operates from 5.30 AM until 1 AM.

There are a few night routes.

Always enter the bus, trolleybus or tram through the front door near the driver. Validate your ticket or card at the automatic pass control validator and proceed inside.

Bus stops are marked by yellow plates marked with "A" signs, trolley stops – white plates with "T", and tram stops – white plates with "Tp".

Taxi

We highly recommend that you use official registered taxi services. While there are illegal taxis in Moscow that offer a cheaper alternative, we strongly advise against using them, as they may be unsafe. Hitchhiking is not recommended either.

Aeroexpress Trains

Aeroexpress provides rail services between the capital and all of the major Moscow airports:

- **Vnukovo** (via the Kiyevsky railway station)
- **Domodedovo** (via the Paveletsky railway station)
- **Sheremet'yev** (via the Belorussky railway station)

Aeroexpress is a quick and safe way to reach the airport without having to deal with traffic jams. Tickets are available at the stations as well as on the Aeroexpress website: aeroexpress.ru/en

Medical insurance

All international students are recommended to purchase health insurance before arriving in Russia. The insurance plan must be valid in Russia. You may require medical treatment and doctor's appointments, tests and diagnostic procedures, even a simple health certificate to be allowed to a swimming pool – for all that medical insurance is mandatory.

Check that your insurance plans contains:

- ☐ Insurance card
- ☐ Insurance plan details (medical services to which you are entitled)
- ☐ Payment or reimbursement details
- ☐ Emergency contacts
- ☐ List of hospitals or medical centres where you can get medical assistance in Russia
- ☐ Students can also purchase medical insurance in Russia, from an HSE partner insurance companies. Check istudents.hse.ru/medical for more information.

Keep in mind that American Medical Center and European Medical Center in Moscow cooperate with many international insurance companies, including BUPA International, Allianz WorldWide Care, and CIGNA International. They can also provide treatment by English-speaking personnel.

HSE St.Petersburg

Year established – 1997.

HSE St. Petersburg is a globally oriented university that is a leader in education and research in the social and economic sciences and humanities in northwestern Russia. The campus ranks sixth on the quality of enrolled students among Russian universities specializing in social and economic sciences, and it ranks third among universities in St. Petersburg. The average IELTS score for students in 2014 was 6.31 on a 9-point scale (equivalent to the B2 level).

Key features of HSE St. Petersburg:

- Combination of theory with high-level social, management and humanities methods.
- An interdisciplinary approach to education and research with a focus on applied aspects of social and economic policy and project activities while accounting for country (regional) particularities.
- Complete internationalization.
- Talent development.
- HSE St. Petersburg is a space for everyone who is interested in understanding the world in its various manifestations. Both its content and atmosphere obey the cardinal rule that everything that is being done is for the benefit of students.

HSE St. Petersburg Today

4200 students

6% international students

9:1 student-to-faculty ratio

23 full-time degree programmes

150+ courses taught in English

HSE St. Petersburg is home to more than 4,200 undergraduate, Master's and postgraduate students, and 100 researchers, most of whom hold Master's and doctoral (PhD) degrees from the most well-known foreign universities. HSE instructors are being published in top Russian and international academic journals and have diverse experience in consulting for Russian and international organizations that are both leaders in business and Russian state agencies. Leading international universities work as partners with HSE St. Petersburg.

HSE St. Petersburg has international research laboratories led by world-renowned researchers, research centres and laboratories, as well as research and study groups in which teachers and students carry out joint research projects.

SU Courses at HSE in St.Petersburg

Critical Perspectives on International Business

Tatiana Grishchenko

Associate Professor: HSE Campus in St. Petersburg / St.Petersburg School of Economics and Management / Department of Management

This course provides the theoretical framework and practical experience of international business in unpredictable and rapidly changing environment. This is a “big picture” course about different aspects in international business: main global trends, influencing strategies of international companies, competitiveness and globalization, the organizational response to environmental changes. A key aspect during the course is to

have an opportunity to observe and assess the international companies’ performance with the emphasis on global economic situation. The course includes a traditional lecture-segment and a student activity-segment with the core focus on real life situations. The case studies and assignments will be used to illustrate key points of international business theory and the challenges facing organisations in an international context.

Contemporary Russian Politics

Ivan Grigoriev

Senior Lecturer: HSE Campus in St. Petersburg / Saint-Petersburg School of Social Sciences and Area Studies / Department of Political Science

This is a broad introductory course to Russian politics designed to give you a good general understanding of how Russia really works. The questions we will deal with are: Why do Russians support autocracy, or do they? Is it good Russia is a presidential republic? What happened to Russian federalism? What about its opposition? Who were those people in the streets in 2011-2012: what did they want, where did they go? Why does Russia sometimes support the bad guys internationally? Some practical issues we will

discuss are: why do they turn the hot water off at summer? Are oligarchs still politically mighty? How much corruption is there and is it bad for development? The course kicks off from, and ultimately returns to the question of how Russian politics interacts with Russian society and economy, and by its end students will get a firm grasp of how this triangle works. To achieve that, the course offers a reasonably vast reading of scholarly articles seasoned with ongoing political commentary and media reports.

HSE Nizhny Novgorod

Year established – 1996.

HSE Nizhny Novgorod Today

2700 students

19 Academic Programs

>20 Foreign Partner Universities

HSE Nizhny Novgorod is one of the best universities in the city.

- Is situated 400 km east from Moscow - 4-hour railway trip
- Is inhabited since 13th century with currently 1.3 million inhabitants
- Is included into UNESCO list of cities of great historical and cultural heritage
- Has more than 600 sites of architectural, cultural and historical significance
- Is major port of river cruises
- Houses 8 theaters, 5 concert halls, 8 museums, 97 libraries, 27 hotels and 15 parks

EDUCATION

33 higher educational institutions

INDUSTRY of the region

- One of the largest automobile industries nationwide
- Leading metal working and engineering center
- Top-3 IT industry nationwide

SU Courses at HSE in Nizhny Novgorod

Intercultural Communication

Marina Tsvetkova

HSE Campus in Nizhny Novgorod / Department of Applied Linguistics and Intercultural Communication: Professor

The course will be aimed at the development of cross-cultural awareness in interpersonal and professional communications and encompasses a theoretical and a practical part. The theoretical part will be based on major theories and approaches in intercultural communication and cover not only American and European theories but also give a Russian perspective. The practical part of the course will be incorporated into lectures and

focus on case discussions and cross-cultural problems solving, which acquires an additional acuteness in the multicultural context of the programme. One of the major accents will be put on cultural peculiarities of Russia and the enigma of the Russian soul. The uniqueness of the course is in the combination of traditional and novel approaches, one of which was introduced by the scholars of Nizhny Novgorod school of intercultural communication.

Managing a Global Team

Mikhail Plotnikov

HSE Campus in Nizhny Novgorod / Faculty of Management / Department of General and Strategic Management: Professor

The course aims at the development of team-leading and team-working skills within the specifics of a multinational group. The theoretical part backs on major theories and approaches in general management and human resource management with a special stress to the findings of experimental sociology. The practical part of the course relies on

management cases and imitative modelling exercises that help students experience the problems discussed. The uniqueness of the course is in the combination of firm theory and experimental findings on one hand, and a significant number of practical examples, activities and questions on the other.

Safety tips

We recommend following basic precautions that would apply to living in any big city.

- Always have a copy of your passport, visa, and the original registration card on you
- Watch out for pickpockets in crowded places
- Keep an eye on your luggage while travelling and try not to take more than you can comfortably carry
- Store your valuables (money, wallet, credit cards, passport) in zipped pockets (on your clothes or in your bag)
- Always know how you will get home, i.e., the time of the last train/bus or telephone number of a reputable taxi firm
- Do not react to verbal abuse/invitations

Emergency numbers

Universal emergency number for mobile phones – “**112**”.
