

Special Criteria for Student Research Papers Submitted for the HSE University NIRS Competition in Mathematics

Dear students,

So that the experts can properly assess your paper, please make sure you adhere to the following criteria:

1. Your research paper should be submitted in the Adobe Reader format (*. pdf), in either Russian or English;
2. The title page should indicate the author and the title of the paper, its keywords, as well as (if the paper has already been published or included in a preprint at arxiv.org) its full bibliographical information and/or a link to this publication;
3. Your paper should include an abstract, an introduction and a bibliographic list;
4. The total size of your research paper is not restricted;
5. Your paper should present new results from research in theoretical mathematics or mathematical physics. It must be written in a strictly mathematical format (all new outcomes should be concisely formulated and provide exhaustively accurate evidence).
