<b>5.5</b>	<b><i>Орфография и пунктуация</i></b>			
	5.5.1		Умение расставлять в тексте знаки препинания в соответствии с нормами, принятыми в стране изучаемого языка. Владение орфографическими навыками	Орфографические и пунктуационные навыки

## ЗАДАНИЕ №1 УСТНОЙ ЧАСТИ ЕГЭ

Nowadays solar energy is widely used as an alternative form of power. Solar panels transform the energy from the sun into electricity. The first plane that does not need fuel was constructed in France in 2015. It uses only the sun's energy. The panels are placed on the huge wings of the plane. It doesn't fly very fast. Solar energy can make the plane move at only 140 miles an hour. However, the plane is able to travel round the world. It is safe and can successfully cross areas of bad weather. In the future, engineers hope to construct a model that people can fly in. Our dream of environmentally friendly transport may come true very soon. Would you like to take a flight on the solar plane?

## ЗАДАНИЕ №1 УСТНОЙ ЧАСТИ ЕГЭ

Nowadays solar energy is widely used as an alternative form of power. Solar panels transform the energy from the sun into electricity. The first plane that does not need fuel was constructed in France in 2015. It uses only the sun's energy. The panels are placed on the huge wings of the plane. It doesn't fly very fast. ## ЗАДАНИЕ №1 УСТНОЙ ЧАСТИ ЕГЭ

Nowadays solar energy is widely used as an alternative form of power. Solar panels transform the energy from the sun into electricity. The first plane that **does not need** fuel was constructed in France in 2015. It uses only the sun's energy. The panels are placed on the huge wings of the plane. It **doesn't fly** very fast. Solar energy can make the plane move at only 140 miles an hour. However, the plane is able to travel round the world. It is safe and can successfully cross areas of bad weather. In the future, engineers hope to construct a model that people can fly in. Our dream of environmentally friendly transport may come true very soon. Would you like to take a flight on the solar plane?

## ЗАДАНИЕ №1 УСТНОЙ ЧАСТИ ЕГЭ

Nowadays solar energy is widely used as an alternative form of power. Solar panels transform the energy from the sun into electricity. The first plane that does not need fuel was constructed in France in **2015**. It uses only the sun's energy. The panels are placed on the huge wings of the plane. It doesn't fly very fast. Solar energy can make the plane move at only **140 miles** an hour. However, the plane is able to travel round the world. It is safe and can successfully cross areas of bad weather. In the future, engineers hope to construct a model that people can fly in. Our dream of environmentally friendly transport may come true very soon. Would you like to take a flight on the solar plane?

## ЗАДАНИЕ №1 УСТНОЙ ЧАСТИ ЕГЭ

Nowadays solar energy **is** widely used as an alternative form of power. Solar panels transform the energy from the sun into electricity. The first plane that does not need fuel was constructed **in** France **in** 2015. It uses only the sun's energy. The panels are placed on the huge wings of the plane. It doesn't fly very fast. Solar energy can make the plane move **at** only 140 miles **an** hour. However, the plane **is** able to travel round the world. It **is** safe and can successfully cross areas of bad weather. In the future, engineers hope to construct a model that people can fly **in**. Our dream **of** environmentally friendly transport may come true very soon. Would you like to take a flight **on** the solar plane?

## ЗАДАНИЕ №1 УСТНОЙ ЧАСТИ ЕГЭ

Nowadays solar energy is widely used as an alternative form of power. Solar **panels** transform the energy from the sun into electricity. The first plane that does not need fuel was constructed in France in 2015. It uses only the sun's energy. The panels are placed on the huge **wings** of the plane. It doesn't fly very fast. Solar energy can make the plane move at only 140 **miles** an hour. However, the plane is able to travel round the world. It is safe and can successfully cross **areas** of bad weather. In the future, **engineers** hope to construct a model that people can fly in. Our dream of environmentally friendly transport may come true very soon. Would you like to take a flight on the solar plane?
