RESEARCH & EXPERTISE

First university to invest its own funds in creation of international laboratories
First state university to employ academic talent from the international market

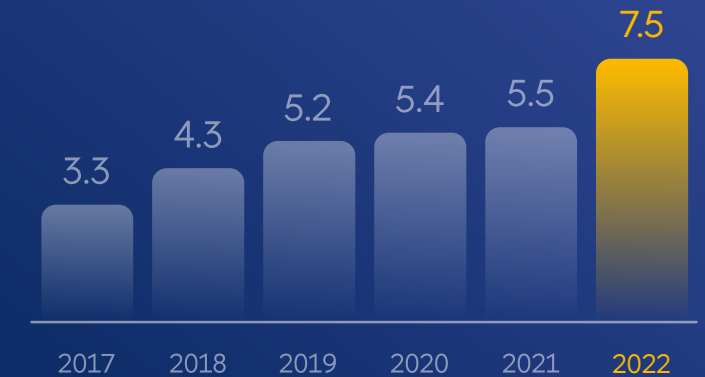

RESEARCH UNITS

- 114 Research centres
- 49 Research labs
- 34 Research institutes
- 50 + Centres of excellence
- Centre for Advanced Research in Neuroeconomics and Cognitive Science
- Centre for Advanced Research in Science, Technology & Innovation

RESEARCH RESULTS

- >250 applied research projects commissioned in 2022
- 1531 articles and reviews in Q1
- 3500+ publications in leading journals indexed in major citation databases (as of 2022)

Amount of funds received from R&D, in bln rubles (₽)

FIELDS WITH MOST PUBLICATIONS

Language and Linguistics

Cultural Studies

General Mathematics

Sociology and Political Science

Economics and Econometrics

cHARISMa the Supercomputer

ranked 6th among CIS's
high-performance clusters

3 satellites

launched in the Orbit
since 2021

Psychometric tool

for assessing digital trust and analysing the
phenomenon of "banner blindness"

MEGASCIENCE & INNOVATIVE SOLUTIONS

ExhauFS

a tool for building the most powerful cancer
survival classification and regression models

Viral Genealogy Simulator (VGsim)

for modelling COVID-19
spreading pathways

Dyslexia Detector

a software using machine learning to
identify a risk of dyslexia in children based
on the eye movements during reading

AI RESEARCH CENTRE

HSE University is **one of 6 Russian leading research organizations** to receive a government grant for creating an AI centre

>30 applied AI projects in finance, telecom, IT and tourism

Top A*-conf publications (NeurIPS, ICML, KDD, etc.)

In 2023 Scientists from HSE University Received First Patent for a system that predicts the spatial distribution of harmful substances in atmosphere using AI

AREAS OF RESEARCH

- **AI in bioinformatics:** drug efficiency prediction, personalized diagnosis based on DNA data
- **Reinforcement learning in applications:** from recommender systems to market-making
- **AI for industrial process** modeling and optimization
- **AI in ecology:** hazard detection and origin prediction
- **Generative AI** for material design
- **Human-AI interaction** in cultural environment: ethics
