”

Parwiz Habib, Afghanistan

The University of York (SU 2014)

This program helps you to get the real picture of Russia and meet amazing people from not only Russia but also around the world.

I was so impressed by the school and its professors that I now want to pursue my PhD studies in HSE.

“

Lijia Lin, China

University of Michigan

Economics and Mathematics (SU 2015)

I want to become a specialist in Russian relations. There are not many such specialists in China or the US at the moment, and to be successful I need to gain knowledge and experience in Russia.

”

Alexis Shaw,

University of North Carolina (SU 2016)

I've read a lot about Russia, both the Soviet and post-Soviet period, and about how your country changed after perestroika and the effect this had on global politics as a whole. Aside from history and politics, I love Russian literature, particularly Leo Tolstoy. During my time in Moscow, I'd like to get to know people so that I can get a good understanding of what Russia is really like and possibly dispel certain stereotypes.
