

IV Scientific and Practical Student Conference

«Studying Media and Communications: Theory, Practice and Research Perspectives»

16th-17th February, Moscow

Faculty of Communications, Media, and Design NRU HSE organizes the III Scientific and Practical Student Conference «Studying Media and Communications: Theory, Practice and Research Perspectives».

This year's conference is open to undergraduate, master's and postgraduate students.

Conference program 2018 involves three different formats of the participation:

- First, it is a traditional report on results of the study (oral presentation).
- Second, a discussion for young researchers on early stages of project implementation (table talks).
- Finally, a poster session will be organized for students of undergraduate courses 1-2.

KEY TOPICS

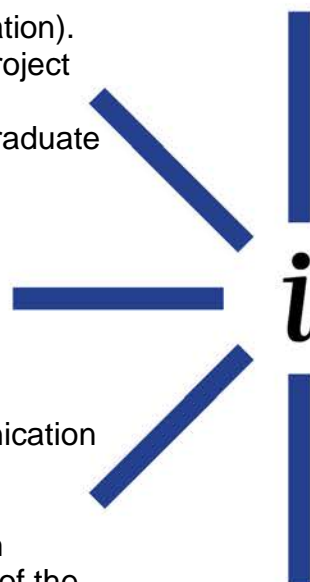

- Theory and History of Media and Communication
- Methodology of Media and Communication Studies
- Economics and Management in The Field of Media and Communication
- Media education and Digital Culture

During conference, an expert commission will evaluate the research projects. The organizing committee will award prizes to the authors of the best presentations in each section. Students from other cities will be provided travel grants.

The abstracts will be posted on the website of the Department of Media NRU HSE.

Conference registration is open until 21 January 2018.

Working languages are Russian and English.

Dates: 16-17 February 2018.

Venue: Moscow, Khitrovsky Pereulok 2/8 Bldg. 5.
